**IN HARNEY COUNTY?**

WE NEED YOUR HELP TO CREATE THE VISION FOR TRANSPORTATION SERVICES IN OUR COMMUNITY!

## GUIDING FIVE-YEAR TRANSPORTATION SERVICE INVESTMENTS

Harney County is updating its Coordinated Human Services Public Transportation Plan (Coordinated Plan) to guide transportation service investments for the next five years. The Coordinated Plan provides a vision for maintaining and growing the County's evolving transportation services into the future.

## WHAT'S IN THE COORDINATED PLAN?

Harney County's updated Coordinated Plan will include strategies that support its existing services, facilities, vehicle fleet, and technology, as well as strategies that support their expansion. These projects aim to provide affordable and accessible transportation services for people of all ages, abilities, and incomes throughout Harney County.

## HOW CAN I GET INVOLVED?

We invite you to participate in the second Open House for the Coordinated Plan. Here, you can learn about the transportation service strategies being proposed for the plan and share your feedback. You can also share about any other transportation service needs you see throughout the community. Additional details about the Open House are provided below.

## MAKE YOUR VOICE HEARD!

### In-Person Open House

Tuesday, November 15, 2022  
11:00 AM to 1:00 PM  
Harney County Senior Center

### Virtual Option

If you wish to participate virtually, an online survey will be available that presents the same information from the in-person Open House so you too can share your input. Details about how and when you can complete the survey will be provided on the project website starting November 14 (see below).
